RE: 2010-2011 STUDENT INSURANCE PROGRAM/POLICY #CHH0057571

---

Dear Students & Parents,

We are pleased to announce that a Student Accident and Sickness Insurance Plan is being provided for all enrolled students at Wesley College. A copy of the Student Health Insurance brochure is enclosed for your reference. All students are automatically enrolled and your individual ID card is included with the enclosed brochure.

This program has been designed to supplement services provided through the on-campus Student Health Center facilities. Students **must** visit the Student Health Center before seeking treatment elsewhere. This basic plan provides a \$15,000 maximum per Injury or Sickness based on the limits as indicated in the Benefit Schedule in the Student Health Insurance Brochure. The information regarding this program may also be accessed by visiting [www.maksin.com](http://www.maksin.com) and using the "School Lookup." Additionally, this plan pays benefits that are in excess of eligible expenses payable by any other Health Care Plan.

An **Optional** Supplemental Major Medical Expense Benefit may be purchased only at initial time of enrollment. After the Basic Plan has paid the maximum benefit of \$15,000 in Eligible Expenses and the \$50 deductible has been met, this Plan pays 80% of Eligible Expenses until an additional \$35,000 for this optional plan has been paid to a per policy year aggregate maximum of \$50,000 per Injury or Sickness. The annual premium is \$350. An enrollment form for this coverage may be obtained at the Student Health Center or found on the website. This option does not apply to the International Students that are required to purchase the Mandatory International Plan.

Your well-being and good health is of the utmost importance to us. We look forward to being able to provide you with outstanding health service during the upcoming academic year.
